Once my friend had taken me to one of his friends' house to see a patient. There I met a person who was lying on a bed. I was told that he is diagnosed as HIV positive and needs someone's support even to go to toilet. I also learnt that the family had spent more than Rs. 1.5 lakh for his treatment. I was very much moved.

I recommended Indian Noni to him. He started consuming Indian Noni from January-2004. In the mid of April-2004, I received a call from them to visit their home. When I went there, I saw the same bedridden person, had put on some weight and was able to walk on his own. I was thrilled.

He shook hands with me and said, "Doctor ! your Noni juice had worked for me, now I can ride my bike and go to work". His family who had totally lost faith saw the light at end of the tunnel. They blessed me in gratitude and the joy of that moment cannot be expressed in simple words.

He now grows from strength to strength and regularly takes Indian Noni. Inspired by this result, now I am recommending Indian Noni to more than 20 patients through a local NGO.

As per the consultant, I started consuming Noni from 19th December, 2003.

After completing 3 bottles of Noni in 2 months my weight has increased by 3 kg and I was feeling fresh because my fever and cough were not there.

As on June 23, 2004, I completed totally 7 Noni bottles. Now my weight increased by 10 kg (from 56 kg to 66 Kg) and I don't have any health problems or illness. I have a feeling that I have come out of danger.

I have decided to take Noni throughout my life.

I thank God for giving me a gift in the form of Indian Noni.

In the month of April, 2004 my brother-in-law had died due to AIDS. Due to my brother-in-law's death news my sister was totally upset. She did not know why her husband died.

After 2 months she started suffering from fever frequently then I took her to my friend's (his name was P.R Jadhav) pathological laboratory to do blood and urine test. Mr. Jadhav had informed me to come the next day.

Next day when I went to his Laboratory I got the news, what I was expecting about the test report. Dr. Jadhav told me that my sister was infected with HIV+ve.

I enquired him the treatments for HIV+ve. Immediately he called Indian Noni consultant Mr. Ramesh Kinnal and Mr. Kinnal explained me how it works on body and explained me how other HIV patients are experiencing.
