Hi friends ! My name is Theresa John. I am 51 years old. I would like to share with you my personal experience of happiness that I enjoy because of Indian Noni at present.

Twenty seven years back, I was laid up with typhoid, relapsed thrice and due to excessive drugs, my blood was poisoned and I had rashes all over the body; there were blisters and water oozing from them.

I am allergic to all antibiotics, penicillin, sulphas, analgesic and pyridoxines. From that instant, I am unable to take any kind of medicines – not only Allopathic, but even Ayurveda, Siddha, Unani, Homeopathy medicines - orally or externally.

## NONI TestiNONIals

As days rolled on I gained weight (89kg / 5ft) and due to this Obesity, I started suffering from Arthritis and Varicose Veins. For the past 20 years I was with swollen knees, with burning sensation in my feet, pinprick pain in toes and severe pain in my sole. Because of these ailments, I could not climb steps, stand for five to ten minutes at a stretch, could not sit and get up as per the need and take first few steps with ease.

So I curtailed all my activities and confined myself within four walls. Along with the above mentioned body conditions, a new comer, Diabetes joined me last 13 years and my sugar count at random was 332. I was completely disheartened.

Since I am an Allergic to all types of drugs, I tried my best to control the situation only by strict diet and that too was not that helpful.

Last year when I met Dr. P.I. Peter, he suggested me for to try Indian Noni. At first I was reluctant to take, then I thought why not I try it out since it is only a fruit extract.

I tried it and to my surprise, without any other medicinal support, on the fifth day I climbed nearly 25 steps at a stretch without any knee pain and other symptoms as I mentioned earlier.

I am now free of my 20 years Arthritis completely. All praise and thanks goes to Mother Nature.

## NONI TestiNONIals

After a month, I checked my sugar level. It was normal without any medicines or diet and my weight came down to 76 kg. As an adaptogen Indian Noni has played its role with Diabetes and weight management.

In January-2004, I underwent a major surgery and in the post-operative stage, due to drug allergy, severe rashes came all over my body and also discoloration of the skin. I soaked my body with Indian Noni before bathing and now all my rashes have gone and my complexion has also improved. I now look better than before. My doctors too were astonished to see me now.

I am completely free from rashes, arthritis and diabetes. My body weight is 70 kg with normal sugar level.

Thanks to Dr. P.I. Peter who introduced Indian Noni in my life and I can never forget this enhancer and adequately express my joy with Indian Noni.

Now I recommend Indian Noni to whomever I come across and enjoy their blessings also.
