My son was suffering from Lung infection since birth. Due to breathlessness problem he was struggling to sleep during nights. He was under treatment with many medicines without any result.

One day Mr. Mallikarjun suggested to give Indian Noni to my son.

After a week of giving him Indian Noni. I was amazed to see him having good sleep and breathlessness is also reduced.

I hope within two months he will get rid of from the breathing problem.

Indian Noni is gift of God.

Dr. Suresh says : “This is to appreciate “Noni” . A blessing of Almighty God to the ailing mankind.” I am a Naturopathy practitioner having vast experience in curing very difficult cases, even cancer.

But six months back, my grand daughter, Krishna Viral Bhatt, aged 10 years, got a sudden attack of juvenile diabetes mellitus.

Blood sugar shot upto 565 and had severe abdominal pain. She remained unconscious for 72 hours.

After medical treatment, she survived and had very serious consequences. She got very rare

Mucormycosis – Fungus infection in the sinusitis cavity.

Later she had undergone a major operation to scrap the fungus which was approaching towards brain.

After that she was advised for Insulin 10 units twice a day to control sugar level.

My friends Bhushan Joglekar & Ramesh Jaisingh, suggested me to give her Noni which is an absolute harmless fruit essence, as a food supplement with multi-dimensional advantages.

After started consuming Noni, Baby Krishna is very comfortable. Her weight has increased and she is taking insulin almost half dose once in a day with sugar under control between 130 to 160 units.

I am most optimistic to remove sugar problem along with insulin and see her healthy forever.

During my present routine practice, I am trying Noni on variety of patients with satisfactory results.

I wish to establish full awareness towards Noni among more and more people with the highest hope of HEALTHY INDIA – HAPPY INDIA.

I salute Noni.

I am a Retired Government Employee, aged 64. In the year 2000, I was implanted with a pacemaker. For the past four years I experience a slight infection near the cut where implantation was done. I had been to NIMS, Hyderabad and they had asked me to replace the machine. Then, for a second opinion, I had been to Puttaparthi Saibaba's Hospital too. They told me that the machine is perfect but there is some problem with your skin and directed me to take treatment for the skin.

After that I came back home and Mr. K.V. Sastri introduced Indian Noni to me. For the last five months I am on Indian Noni and no infection was there in the wound. I feel good and energetic. I am happy now that I can do my normal work without any problem.

For me Indian Noni is a good health enhancer that gives me strength to fight the disease.

My son Rajat Ramesh Rao had a problem i.e., when he urinates, his urine was smelling very bad.

One day Mr.Prakash Pedapalli came to our house and introduced Indian Noni. I started giving it to my son Rajat Ramesh Rao.

After taking Indian Noni for 3 days the bad smell of urine has gone. Then I tried Indian Noni on my second son who was having a problem of breathing, when he sleeps he used to snore making a loud noise. After taking Indian Noni, my son is sleeping well without making noise. Indian Noni has brought happiness in our children's life. Now they are playing well, eating well and also sleeping well. Indian Noni really brought happiness in our whole family.

I am very much thankful to Mr.Prakash Pedapalli and also I am thankful to Indian Noni.

I was undergoing treatment for the last 2 years in Bapuji Hospital, Davangere for my kidney infection. I felt very weak and tired all the time. I could not carry out even a simplest household work.

I felt miserable about the amount of money that had been spent on my condition, all with no positive results.

At that time one of our friends S. Abdul Samad explained about Indian Noni and suggested me to take 30 ml every day.

I started consuming Noni.

After 4 months of taking Noni, today I am not dependant on medicine and my kidneys are functioning normally.

I feel active and am able to carry out my daily work easily.
