I am Lalita Sharma and have been suffering from Diabetes and Menstrual Irregularities for the past 4 years.

I was very much worried about this and had spent time and money on visiting doctors and buying medicines.

On one occasion, on seeing my ultrasound report, the doctor had advised me to go for hysterectomy.

I could not afford to go in for a surgery, as it was very expensive. I restricted my visits to the doctor due to the financial constrains.

On one occasion, an old family friend of ours came to my house for a visit and told me about Indian Noni.

He briefed me about its benefits, and showed some testimonials. I decided to take it, as it was comparatively less expensive than my proposed surgery.
