Indian Noni has come into my life as a stress reliever. It made me to sleep very peacefully at night and wake up very fresh in the morning. It kept me truly internally charged and alert throughout the day at my work.

I am a professional entrepreneur carrying out several business activities all over with greater life expectancy resulting to drastic change in life style, extensive travel by all means, wrong food habits, prolonged talk on Mobile phones resulted in me, a high amount of mental stress and strain.

I was not able to concentrate on the job followed by irritation in the evenings and no good sleep at night.

I have no health problem, but I was willing to seek Doctor's consultation for a feeling of well-being, more energy and overhauling of the above problems.

This was the time when I got introduced to Indian Noni by Dr. P. I. Peter and with a great belief I started taking Indian Noni juice regularly with life changing results.

Now I have found considerable reduction in my weight, more life force energy and vitality for extra work. Subsequently I have become a permanent user of Indian Noni and today everyone in my family i.e., my parents, brother, wife and my little kids are Noni users and immense lovers of Noni.

Further I started promoting Indian Noni to large number of people with great results, those who were suffering with many chronic diseases and spending lots of money regularly.

Today for me " Noni Earns Great Health and True Wealth". Now I desire to live with Noni and see the world with abundance of Noni.

I pray the almighty God to bless and strengthen the power of Noni more and more to reach it to large number of needy people.

Thank You Noni... Noni I love you.

I am working as supervisor in Pampasar Distillery Company (PDL). For the last two years, I was suffering from various health problems. I am going to tell you how this excellent fruit juice helped me to live a real healthy life.

My first problem is the Digestion; whenever I eat something, it wasn't digesting properly. I could feel that as if the food was converted into a stone inside the stomach. As a result of this, daily I used to go latrine soon after taking food. It is in the month of June, 2003, when spring came into my life in the form of Indian Noni.

Within 15 days of my regular intake of Indian Noni, the digestion problem wasn't there at all. Today whatever I eat, I feel that is completely utilised by my body.

NONI TestiNONIals

Now, the whole day I am active and energetic even when I come home after my work.

And my second problem is nervous weakness. After sleep, I couldn't wake up immediately. I felt like someone was striking my body. When I started the second bottle of Indian Noni, this problem is completely solved.

I also had Joint Pain, whereas today I feel like my body is completely weightless and painless. Thanks to Indian Noni.

Earlier I used to get angry on everybody. There was also some sort of stressful fear in me. Today I am completely a cool guy and I have peace of mind and there is no fear in me.

Indian Noni had worked in my body both in physical and mental levels; there is no exaggeration if I call this excellent juice as "The Eighth Wonder of the World".

Today my friends started telling me that my skin colour is changed and I tell them "Yes, it is because of Indian Noni".

Thanks to Dr. P.I. Peter for giving good health for me and to my family by giving the Great Gift of Nature made available to the whole country.

For the last 3 years, I was having Depression, Diabetes and High B.P. I was always feeling very tired, depressed and not interested in day to day activities.

Then few months back a friend of mine, Mr. Altaf asked about my problems and I told him my health condition. He then advised to me attend one Health Seminar.

At the seminar, Mr. Mallikarjuna and Mr. Shafeeq Ahmed explained about Indian Noni and showed me the results of others.

After taking Indian Noni, I am feeling better now. My FBS (sugar) has come down from 280 to 125. My BP has come down from 180 / 140 to 120 / 100. My depression levels have also decreased.

According to me Indian Noni is the Sanjeevani. I suggest my friends and relatives to use Indian Noni as a health drink.

I am a 55 years old diabetic and hypertensive individual who had lost interest in life and in work due to my health problems.

I had got into Depression, and even going to the doctor for regular checkups was an ordeal for me.

Seeing my pathetic state, my doctor put me on to Indian Noni juice, he said that trying this would do no harm. Believing in his words, I started drinking it. I slowly found myself active and cheerful.

Good news awaited me when I went to the doctor - my sugars were well under control and so was my B.P.

I rejoined my work and overcoming my depression, I am leading a normal life now.

I am a school teacher. Depression and the problem of obesity had consumed half of my energy.

I used to get tired very fast and found it tough to manage the equally demanding commitments both at home and at work. Headaches were common during office hours.

Helplessly I used to cry in solitude. I attended the counselling session by Ms. Sujatha Raman and was introduced to this fruit juice - Indian Noni. She had asked me to try this food supplement and watch the results.

I have been trying this marvelous juice for four months and I have reduced my weight which was a great surprise to me. I feel very active, happy and fit now. I am able to concentrate more on my job and serve my school and students better.

I thank Jesus for this gift to mankind.
