My 2 daughters had difficulty while passing stool, blood is to drop from their anus. I attended a Seminar of Dr.Satish Kumar, recommended by my brother-in-law Mr. B. Dhananjai Kumar.

I started giving Indian Noni to my above 2 daughters. Now they don't have that problem.

Anvitha the younger one is slightly built and looks weak compared to Akshitha, & weighs 2 kg less.

After Indian Noni she gained weight. Both love Indian Noni very much and want to drink more, than what doctor prescribed.

Now I too started taking Indian Noni for me to remain in good health.

Thanks to Indian Noni.
