Srinivasa, Nilaya

Mysore Road

Hiriyur, Karnataka

I am a registered Homeopathy practitioner, aged 54. I was having a burning sensation at my lower chest for almost 10 years.

I felt pain after taking food and couldn't sit in the bus while travelling. I felt bowel obstruction at times.

My wife and I happened to attend a session conducted by Empower India Movement and came to know about the health drink, Indian Noni.

I started taking it for 2 months and found that it has an excellent effect on my body. The burning sensation at my lower chest had disappeared and I feel energetic and active.

Indian Noni is a very good health booster and immunity developer.

NONI TestiNONIals

Burning Sensation in the Legs, Weakness and Back Ache

For the last three years I felt burning sensation in both my legs and stomach. I underwent many treatments with many doctors, but everything was in vain and no improvement in my health.

Due to intake of various medicines blood was oozing from my gums and I feel drowsiness (sleepy)

One day my son Mukund Choudhari suggested Noni to me. Till today I have consumed three bottles of Indian Noni.

Now no more health problems I am leading a healthy and happy life.

For Indian Noni is God's gift.

Andhra Pradesh

I was suffering from burning sensation in my palms and feet.

After trying many medicines there was no improvement.

On suggestion of Dr.R.K.Bhuta, my friend, I started taking Noni.

Then I find the good results. The burning sensation in my feet and palms have disappeared.

I thank the nature's gift to mankind, Noni.
