Maharashtra

Initially I was known as the complete drug Addict. I had crossed all the limits of it. My parents admitted me in D-Addiction centre. But it was only psychological healing. The physical loss due to drugs was not recovered so far.

One fine day Mr. Pravin Loke and Mr. Nilesh Kothadiya from house of Health ENT, Nigdi approached me and suggested me to take Noni (30 ml a day) in the morning. I started from the very next day and got stuck in the toilet for complete 7 days. Urinations and stools were calling me every one hour.

Now the frequency has reduced. The rashes got faded. I am feeling the completeness from within. I feel like a Human being today.

Thanks a lot to Noni and its makers and House of Health ENT.
