I got hurt in a scooter accident during August 2001. Since then the nail on the toe of my right leg which was damaged, did not grow fully, presenting an awkward look. I was introduced to 'Indian Noni' by Mr. Subha Rao and Mr. Murthy, the leaders.

I have been using Indian Noni for the past one month. I am happy to state that the nail is growing fully. I am sure that in another one month's time it will totally grow to the normal extent.

I was also suffering from gastric problems earlier. Now I am not experiencing any such problems now.

I am thankful to Mother Nature & Indian Noni. I am promoting health awareness through this amazing GOD's Gift.
