My Son, C.S. Karthikeyan was having loose motions since birth. He was not able to digest any kind of normal food and if he took greens and vegetables/masala curry/non-vegetarian food, we had to rush him to the hospital the very next day.

A friend of ours introduced us to Indian Noni and ever since my son has been consuming this Health Enhancer he is able to eat at any time without any digestion problem and stomach pain.

We are grateful to INDIAN NONI and Indian Noni is the boon for our health.
