Karnataka

Yashavanth is my three year old son, who has been suffering from Stomach Pain for the last two years, due to worms in the stomach. Because of this he had become weak.

When I learnt about Indian Noni, I decided to give it to him.

After a week of taking Indian Noni, we find that the Worms have left his system and he is alright. He never complains about Stomach pain.

Now he is very active and healthy.

Indian Noni is the best drink and it has given a miraculous advantage over our health.
