I am Disha Prabhu aged 6½ yrs studying in 1st standard in Nirmala convent. In the last three years I used to fall sick and had cold & cough every month or once in 15 days. I never gained weight above 12 kg.

Now I am drinking Indian Noni 5 ml for the past two months which was introduced to me by my father.

Now my weight is 16 kgs and I take more food now and haven't fallen sick or got cold in these last two months. I am doing well in studies and my height has increased by 4", when ever I feel thirsty instead of fruit juice I prefer Noni with lemon & sugar. I hope all youngster like me can truly drink this fruit juice.

Indian Noni is Amurtha for me in these days of polluted life style.

For six years I have been under so much of medication for my breathing and cough problems.

The condition of my body had deteriorated to such an extent that I was in no position to look forward to any kind of improvement.

On 4th Feb 2005 Dr. Bhaeswadkar from Aurangabad, Professor in WALMI introduced me to Indian Noni as he had reaped its health benefits.

I took one Noni bottle from him and started taking it. I could see a remarkable change in my body condition.

I had no sensation to smell for 8 to 10 months but after consumption of Noni I feel the smell.

NONI TestiNONIals

I started taking it. After 3 months when I had been for a routine check up, to my surprise I found that my B.P was absolutely normal 120/80 and my diabetes also showed signs of improvement.

After 6 months my diabetes became absolutely normal RBS 136 after meals. I am very happy now. Not only that, I have reduced 8 kg weight, I am feeling very young and energetic and my skin is glowing. This is what my friends say about me.

Also I had severe hair falling problem rather I developed baldness due to wrong medicines by a Hakim.

After taking Noni it is really astonishing that my hair is growing.

My heart felt thanks to my Aunt Uma and Venkatesh for recommending Indian Noni.

Last but not the least Indian Noni has brought a Ray of Hope in my life.

My above 2 kids were suffering from cold since birth. Doctors recommended medicines. But there was no improvement.

I came to know about Indian Noni. I started to give them Noni.

After taking Noni for 2 months, they recovered completely.

We are all happy with Indian Noni.

Indian Noni is God's gift.

I was suffering from breathlessness and bronchitis for the past 5 years. I had tried many medications on Doctors prescriptions, but no use.

One day my friend explained me about Indian Noni and suggested to take Noni, accordingly I started taking Noni as per the directions given in the booklet.

After a week passed I realise my breathlessness reduced. After 20 days I got rid of from the most of my problems. I could feel I become healthy and young.

I do hope Noni will make me alright completely within a very short time.

I will definetely continue Noni till my life long time.

Indian Noni is a Sanjeevini.

I Ramesh Kumar was suffering from fever for about a month. I was put on lot of antibiotics due to which I lost my appetite completely. I was unable to take even one loaf of bread at a time.

Shri R.L. Nayyar advised me to take Indian Noni one day.

I followed his advise and started taking Noni.

To my utter surprise I was astonished to find myself eating five loaf of bread at a time after two days of taking Noni.

I also felt very energetic and I have gained my health with in a few days of consuming Noni.

Now I am taking Noni regularly and feel much better.

Noni is a gift from Nature.
