I am a housewife and I have been suffering from giddiness and breathlessness for the past 5 years. In such condition I had done a thorough investigation and doctors advised medicines.

I was introduced to Indian Noni by Mr. Pandurang Jagtap and he advised me to take Indian Noni continuously.

Now it is more than a month I have no giddiness or breathlessness. Also I am energetic the whole day which helps me in getting my household job done more easily and also enjoyable.

I thank Indian Noni.

Uppal Dist., R.R. Dist.

Hyderabad

Andhra Pradesh

I am an Ayurvedic doctor, suffering from Circulatory problem, constipation, giddiness, acidity and burning feet syndrome.

The above mentioned body conditions were pestering me for almost 2 years.

Through my friend Mr. Keshavachary, I got introduced to Indian Noni. Now I am totally free from constipation and my giddiness has reduced.

My circulatory system has improved. My overall health condition has improved drastically.

Indian Noni is like an amirtham.

It works effectively for all.

Eight months back I met with an accident. I had head injury and had been hospitalised for treatment.

I used to have frequent giddiness. I used to feel uneasiness, headache and weakness.

I knew Indian Noni before and now I am using it regularly.

After using Noni my giddiness has stopped, though the headache is not regular, it is intermittent.

I could feel the freshness and energy.

I thank Mr.Vijay Gaikwad who gave me Indian Noni and blessings too.
