Nakshatra Apt 'B' Wing
Block - 9 At Post Kankavali
Sindhudurg Dist.

I was suffering from Pnuemonia one year back, due to which I had cough and asthmatic problem. I was not able to walk even 100 meters. I started losing weight. I lost 6 kg in that period. One day I had a big sneeze due to which my 5th column of spinal cord was dislocated. I lost sensation of my left leg.

This was a psychological shock for me. I spent more than Rs. 50000/- for Neurologist, medicines and various lab tests, but it didn't work on me.

One fine day my friend Mr. Ganpat bhai Chavan introduced me to Indian Noni. In this last three months my cough and asthmatic problems totally solved. My left leg which was unable to move is more than 80% better. Now I can walk miles. My weight has increased by 8 kg. I feel energetic and full of life now.

Thanks to Indian Noni.
