Knee Swelling & Black Marks on Cheeks

Shalan Maruti Khodave

44 Years

Female

Shri Krupa, S. No.80/2-B

Dutt Nagar, Dighi

Pune-411015

Maharashtra

I was suffering with swelling of knees and there were lot of black marks appearing on my cheeks.

Also I used to feel tired very often and was facing severe knee pain for the last one year.

After taking Indian Noni, to my surprise the swelling had reduced and my skin is smooth and shining and the black marks on my cheek disappeared completely.

Now I look young and energetic. No pain is attacking me.

Indian Noni is a revolutionary health enhancer.

Ranibennur-581115

I am a diesel mechanic in Ranibennur. My 5 year old daughter Seema Banu was having a swelling in the neck below the chin of 1" x 1" size for the last 1 year, which was painful.

Once Abdul Samad conducted a Seminar on Indian Noni. He explained about Indian Noni, how it works? What is it? etc.,

So I consulted him about my daughter's ailment. He advised me to try Indian Noni for my daughter.

Accordingly I started to give her Indian Noni.

After 3 months of taking Indian Noni the swelling disappeared and she became healthy.

Indian Noni is Allah's gift. I wish to share this greatest gift with everybody.

I am suffering from asthma for the past 15 years along with swelling of body and sometimes my heart beats very fast.

My family member Ms. Noorjehan was using Noni and she felt better with Indian Noni.

I also started using Indian Noni by the end of May 2005.

Now there is no body swelling. I feel that I am completely alright from asthma problems and lungs are very clear. My heart beating is also normal. I am continuing Noni.

I confidently say that Indian Noni has a very good power which can protect our body from all diseases.

Karnataka

I am a housewife, aged 67. I was suffering from swelling in the left buttock. A month ago, I found that it is increasing in its size. I was upset and started doubting that it could be cancerous.

Mr. B.S. Neelappa, in the month of January-2004, introduced me to Indian Noni. He also directed me how to drink this juice. I took it regularly as per the directions given.

I started feeling very much better and have become active in my daily life. In the process, I have also noticed that the swelling has completely gone away and I am totally alright. I am now taking third bottle of Indian Noni and I am hopeful of many more improvements.

For me, Indian Noni is Caretaker Sanjeevini for all ages.
