I am a Businessman, always with a heavy work schedule. Due to business I travel a lot all the time. I am habitual to drinks because of drinking habit this my blood pressure became low. I am allergic to allopathic drugs. So I have consulted Mr. Sanjay Gangwani who counselled me about Indian Noni and its effectiveness.

My wife was also suffering from vomiting. So we both started taking Indian Noni and within the period of 3 months my blood pressure became normal and my wife's vomiting problem stopped.

Instead of spending lot of money for medicines, it is better to take Indian Noni.

Thanks to Indian Noni.

I was suffering from frequent vomiting and it did not subside by using any allopathic medicines. I used some of the household medicines also which did not give any result. I lost 10 kg in one month. I could not eat anything.

I drank 1-2 drops of water but vomited the same by around a glass of it. Due to this my BP went low.

My mother asked me to take Noni and see if it makes any difference. I started taking Noni.

I could see the change in 5 days. I started eating slowly in one month. My weight also increased by 5 kg. My weakness also have gone. I feel better now.

I thank Sree Ghatol saab, Sree Anil Pawar saab, Sree Ingale saab, Sree Surve, Sree Jagdante and my mother. Definitely it is a great benefit.

I thank all those who made Indian Noni possible.
